# Esteves Group news

October 2010

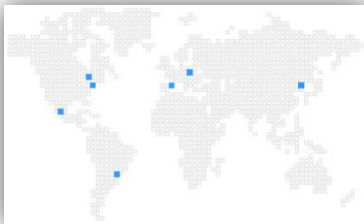

Learn more about Esteves Group on [www.estevesgroup.com](http://www.estevesgroup.com)

## Esteves Group around the world

Esteves Group is present on all continents and provides service to customers in more than 90 countries.

Esteves Group, [the global die company](http://www.estevesgroup.com), currently employs more than 500 people in its 7 factories located in the USA, Mexico, Brazil, Spain, Poland and China.

WE are always close to our customers and our aim is to deliver an excellent product and provide a high level of service at a good value

## Be online with Esteves!

Esteves Group has a modern and user friendly website to help our customers with different needs. Access [www.estevesgroup.com](http://www.estevesgroup.com), and download the [Drawing Die Wizard](#), the first die design software, and easily design your own dies.

Also available online is the [E-Wizard](#); a comprehensive book containing information about materials to be drawn, wire die profiles, special tools, useful formulas, tables and many other resources.

Our customers can easily register themselves in the "customer area" at Esteves' website to enjoy all services and better know our products. All information about the company, our philosophy and all events we are participating in are also available on our website. Be online with us at [www.estevesgroup.com](http://www.estevesgroup.com).

## Trade Fair China

The [4th All China International Wire & Cable Industry Trade Fair](#) was held in the New International Expo Center in Shanghai, China September 21 – 24, 2010. Esteves Group was again an exhibitor at the Fair to support our customers and reinforce our presence in the Asian Market. Once more this year Esteves Group staff members from Spain and Brazil were at the Fair to support their colleagues in China.

[Esteves Group](#) is a global die company who participates in almost all wire and cable trade expositions around the world as our aim is to be close to our customers. Check out our website: [www.estevesgroup.com](http://www.estevesgroup.com) for the next expositions in 2011.
