Refurbishing services

Drawing die recutting/repolishing/resizing

Highlights

- Drawing die cost savings by re-using dies
- Recover initial drawing die performance
- Easy ordering, one price per size
- Available for PCD, SSCD and ND dies

Die refurbishing services save costs by restoring or enhancing the original performance in drawing dies.

At Esteves Group, we have spent years developing processes that have helped the wire drawing industry save cost.

This experience delivers recutting, repolishing, and resizing capabilities that fully recover or sometimes enhance the initial drawing die performance.

Drawing dies can usually be reused several times. When you send your dies to us to be refurbished we will inform you about the die condition, if we detect any abnormal wear, and if the dies can be repolished or need to be recut.

You can count on us to find the most cost-effective solution for your die recutting needs.

Esteves Group die refurbishing is available for all types of diamond drawing dies, regardless of the original manufacturer.

We Specialize in...

- Wire Drawing Dies
- Bunching, Stranding & Compacting Dies
- Split Dies
- Tubing Dies
- Shaped Dies
- Extrusion Tooling
- Die Reconditioning Tools
- Engineering Services
- Customer Support
